**Bookshelves, Books and DVDs donated by Grace Impact arrive in Dagoretti/ Nairobi**

Grace Impact has donated four bookshelves and a large collection of books and DVDs to the Waithaka Library. James Waithaka, the head librarian, is almost finished with sorting, classifying and recording these items in the KOHA library program.

Together with Jackson Odiaga, Co-Founder & Director of Media Hub ke, James plans to make a short documentary on how the Waitahka Library has benefitted youths and young people during the Covid-19 pandemic. We will post this film as soon as it is completed.

Grace Impact, James Waithaka and Amref Health Africa have plans to increase the range of services offered at the community library as well as improve its resources (more laptops, more school books, etc.). Furthermore, we are contemplating various revenue and fee generating activities that can help cover the library's operating costs. These ideas include a water kiosk that sells water at a fair price along with sells basic necessary items.
